# UNIVIEW PRODUCT GUIDE

VERSION 1

# ABOUT US

## Aiming to excellence

Uniview is a leading global manufacturer of professional video surveillance devices and solutions. As first to invent the network camera in China, Uniview has continued to bring cutting-edge technologies to the industry. Uniview provides complete product lines including network camera, network video recorder, storage, transmission, and display devices. With integrated solutions for various industries including retail, healthcare, finance, transportation, industrial park, and more, we are committed to bringing better security to the marketplace for building a better world.

Uniview has complete IP video surveillance product lines including network camera, NVR, VMS, professional storage, display and control devices, covering a diverse vertical markets including retail, building, industry, education, commercial, city surveillance etc.

Our aim is to become a global leader in video surveillance industry which endeavors to build a safer world by providing professional, reliable and cutting-edge products and services.

## Vision

To become a global leader in video surveillance industry

## Product line

Network Camera, NVR, VMS, Professional Storage, Display & Control

## Network Camera

Products from Easy series are most popular choices for entry-level applications such as residential and small retail stores. It consists of L series IP cameras and brand-new Easystar series starlight cameras. All of them are featured with Ultra 265 compression technology which is exclusively developed by Uniview. The most important business value of them is providing excellent performance with affordable price. In addition, Easy series products are very easy to install and maintain, hence can be utilized anywhere within seconds. Easy family products are most cost-effective options for a residence and small business application.

## PixelSense Technology

PixelSense is Uniview's patented technology for switching Day & Night mode of IP camera. The traditional hardware switching method rely on an optical coupler which detects the illumination of the place where the camera is installed in. However, if the illumination of installation environment is different from real shooting scene's, the Day & Night switching might be triggered incorrectly.

UNV PixelSense technology is much more accurate. It detects the shooting scene's illumination (RGB) by the sensor of the camera, then drives IR-CUT to switch Day & Night mode. Besides, PixelSense technology is not rely on hardware optical coupler, that is the reason why it can reduce the failure rate.

## Updated U-code Technology

U-code is a deep video compression technology which can reduce up to 90% bitrate in order to save bandwidth and storage space. U-code technology separates moving target and static background with different codec and adjusts GOP dynamically, meanwhile keeping good image quality. Recently, updated U-code supports frame rate controlling for different video content, we call it the dynamic frame rate. It is used to automatically maintain high frame rate monitoring for many moving objects scenario, but decrease the frame rate for few moving objects cases. No more details will be missed for complex surveillance images, and no more storages will be wasted for simple monitoring situation.

## Easystar Series

If you hope to find the most cost-effective cameras that is also capable of presenting excellent color image performance, the new Easystar series is definitely the best choice. Those cameras hits the entry-level surveillance market with incredible starlight-level imaging performance and valuable price. There are 2MP bullet, dome, turret models and 4MP bullet cameras. The long night IR visible distance that up to 50m(bullet models only) offers best user experiences. Besides, the 4MP model support WDR which ensures excellent image quality in significant foreground and background illumination contrast. Easystar cameras is the optimal option for the small-to-medium business applications such as office park.

## Easy to Use/Maintain

Easy series IP cameras support one-click firmware upgrade, upgrade via cloud, and plug & play for installers and end users to use easily. In troubleshooting, it's also easy to output diagnosis log by one-click. Easy series IP cameras can also detect the network connection regularly, once the network disconnection is detected, the IP camera will reset the network module inside of IP camera or reset the camera to recover.

## Reliability at Design and Tests

From selective components to design product reliability during research and development, from process control during production to full-process traceability system, Uniview is dedicated to pursuit high quality. All sensor boards in UNV cameras are designed as 2mm thickness to avoid defocus by deformation while using in extremely harsh environment.

### IPC2124LR5-DUPF28(40)M-F

- 4MP@25fps (2592\*1520)
- Ultra 265, up to 95% bandwidth reduction
- Smart IR and anti-reflection glass design, up to 50m IR distance
- 120dB true WDR
- Support PoE, ±25% wide voltage tolerance
- Apply metal housing, IP67 water proof

### IPC2128LR3-DPF28(40)M-F

- 8MP@20fps (3840\*2160)
- Ultra 265, up to 95% bandwidth reduction
- Smart IR and anti-reflection glass design, up to 30m IR distance
- 120dB true WDR
- Support PoE, ±25% wide voltage tolerance
- Reset button, IP67 water proof

## Network Camera

It is unbelievable that you can always find ideal products in UNV Prime series which has more advanced functions to implement excellent performance. There are 4 sub-series in it and each of it is especially designed for specific market. Prime-IV cameras are featured with AI algorithm that is able to reduce false alarm intelligently. Prime-III are professional cameras for color imaging in ultra-low light conditions that powered by LightHunter, Uniview's brand-new imaging technology. Prime-II series are standard cameras that have a wide range of smart functions, resolutions. Various mainstream resolutions such as 2/4/5/8MP are available that can show different levels of image quality. Prime-I series has more enhanced hardware such as WDR, audio, alarm, SD card compared to Easy series. Products from Prime family are commonly used in commercial building, park, and small project application to effectively guarantee security.

### IPC2322EBR5-HDUPZ

- Backside illumination technology sensor, F1.2 big iris
- Smart function: face detection, intrusion detection, scene change, crossing line detection, auto tracking, defocus detection, audio exception
- Minimum 0.0005 Lux illumination, produce clear image at low light situation
- 120dB true WDR
- Audio 1/1/, Alarm 1/1
- Support up to 128GB Micro SD card storage

### IPC354SR3-ADNPF28-F

- 4MP@30fps (2688\*1520)
- Ultra 265, up to 95% bandwidth reduction
- Smart IR and anti-reflection glass design, up to 30m IR distance
- 120dB true WDR
- Audio 1/1/, Alarm 1/1
- Cable-free design
- Support up to 128GB Micro SD card storage
- Support PoE, ±25% wide voltage tolerance

## LightHunter

The LightHunter Technology is an innovative technology that delivers vivid color, appropriate brightness, and extremely clear images in ultra-low light condition. It significantly improves the image brightness with F1.2 Large Iris design & BSI sensor. With the specially designed large size sensors, the IP cameras have higher photosensitivity, and feature high SNR. Besides, UNV's unique patented technology U-ISP features the new generation of noise reduction algorithm helps to produce no smearing image at Low-Blur mode. It effectively reduces blurring during objects' moving, which ensures that the image is restored to the true scene. Combining hardware and software advantages, LightHunter Technology guarantees the image full of color under ultra-low light condition.

## Smart Functions

Cameras in Prime series support a wide range of smart functions. For instance, crossing line, intrusion, face detection, audio exception, scene change, tampering, defocus, people counting, object abandon/removal, human body detection. Especially Prime-IV series are embedded with deep learning algorithm and chip, capable of filtering out other target such as leaves, animals, rain, birds to precisely get higher correct alarm trigger rate. In addition, Prime-I series features human body detection that only detects human figure, which can improve detection

rate, prevent false trigger by other objects.

## Environment Adaptability

Environment adaptability includes network adaptability for packet loss, image adaptability for different surveillance scenes (Starlight mode for low light, auto WDR/HLC/Defog, and Smart IR) and environment adaptability (auto heating at low temperature and snow removal).

## More Reliable More Efficient

Prime series IP cameras support wide working temperature range and input voltage. In the IK10 dome cameras, the professional FFC cable can deliver a better EMC test result. Image distortion rectifying algorithm is used for all wide angle lens at wide side.

## Deep Learning Intelligence

Prime-IV series cameras utilize AI chip and algorithm that can filter out useless target like leaves, animals, rain, birds to get precise target classification of vehicle and human. Besides, Prime-IV cameras support accurate perimeter protection that effectively reduce false alarm. What's more, face detection, people counting are also featured.

## Network Camera

UNV Pro series are born with excellent ultra-smart technology, deliver superior users experience.

Applied with smart function, products in Pro series are able to suit for a range of tough situations. 4K@30fps, 2MP@60fps, LightHunter, WDR, abundant interfaces, in addition to those performance, Pro series also include OmniView camera, which combines multiple sensors to provide a panoramic view.

The Pro series products are the first option for enterprise and project applications.

#### IPC8542ER5-DUG

- LightHunter, minimum 0.002 Lux illumination
- Smart IR and optical glass window, supports up to 50m IR distance
- 180°Horizontal viewing angle
- Ultra-smart functions

#### LightHunter

Most of products in Pro series are powered by LightHunter, which perform excellent in low illumination environment. LightHunter technology is popularly applied in projects like airport, highway, or safe city applications.

#### 4K

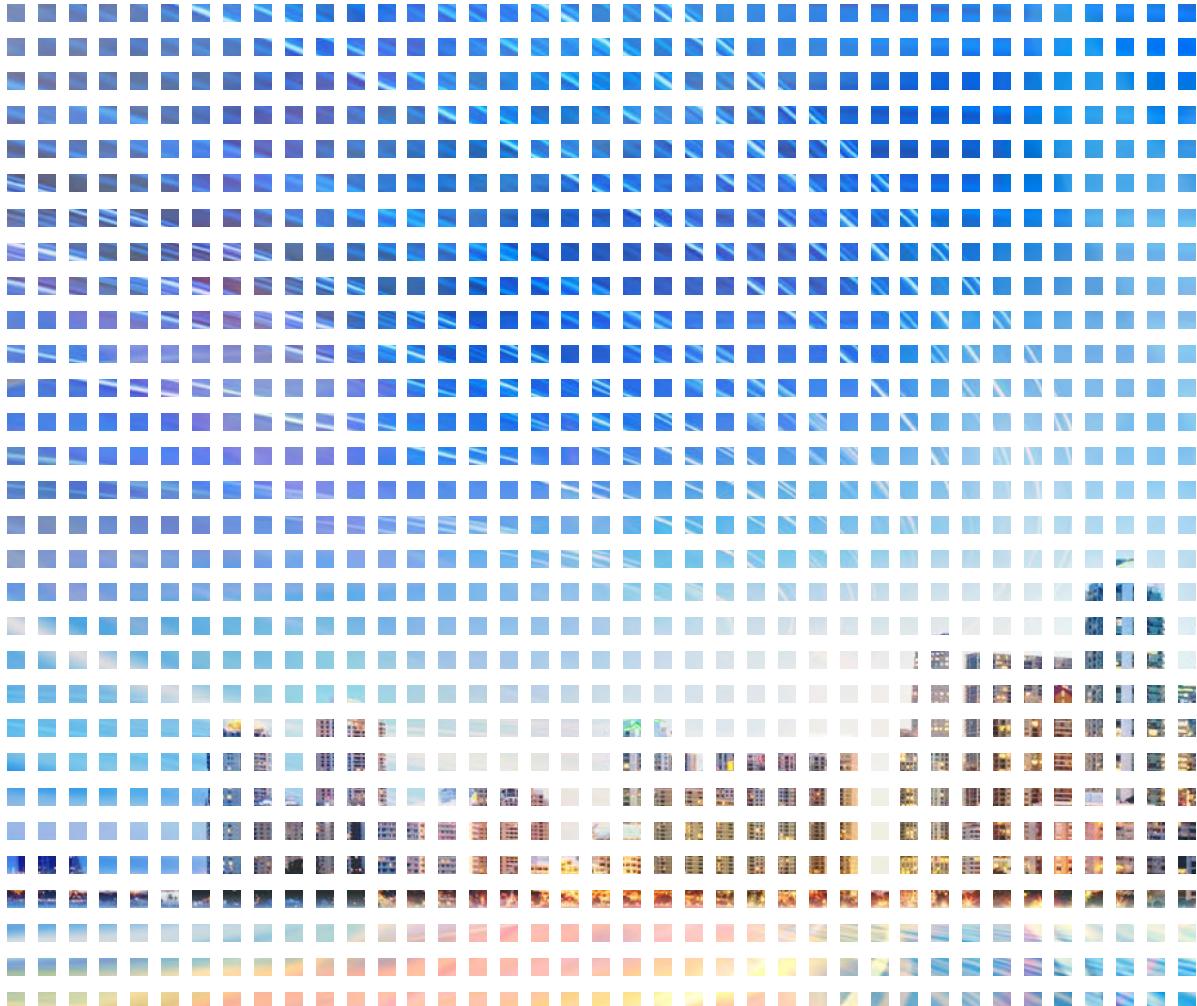

4K series delivers box camera, 4x bullet/dome camera at 30fps. The higher the resolution is, the wider surveillance range reaches and it would be easy to zoom in by digital zoom to get more details. As we all know, 4K 30fps generates higher bitrate and bandwidth and also results in higher storage cost. To solve this problem, UNV Ultra 265 deep video compression technology can perfectly solve the problem by reducing up to 90% bitrate without losing any details.

#### High Reliability

Wide voltage range of  $\pm 25\%$

Wide temperature range:  $-40^{\circ}\text{C} \sim 60^{\circ}\text{C}$

Surge protection designed for network interface

## Network Camera

UNV PTZ series cameras cover entry level, standard level and enhanced level, meet different customers' requirements.

Mini PTZ camera which targets to entry level market is featured with built in microphone, speaker and wifi, suitable for retail market. The standard and enhanced PTZ camera are suitable for vertical industry projects with up to 44x optical zoom, 4K, 60fps, LightHunter, long range IR distance, WDR, abundant interface and IK10. Specialized camera such as TeleView can be adopt in forest, harbor and city monitoring project. Besides, AlphaView PTZ cameras based on deep learning algorithm can realize target classification and attributes extraction, support advanced smart functions including face capture, perimeter protection, people counting, auto-tracking and video metadata.

#### IPC6415SR-X5UPW

- LightHunter, minimum 0.002 Lux illumination
- Smart IR, up to 30m (98ft) IR distance
- Up to 120 dB true WDR (Wide Dynamic Range)
- Built-in microphone & speaker
- Support PoE power supply
- Support wifi
- Support smart function

#### IPC6858SR-X38UP-VC

- 38X Optical Zoom
- 1/1.8" sensor, LightHunter, minimum 0.002 Lux illumination
- Smart IR, up to 250m (820ft) IR distance
- Gyroscope stabilization
- Support PoE (IEEE 802.3bt)
- Optical Defog
- AlphaView, support deep-learning algorithm

#### IPC7622ER-X44U

- 44X Optical Zoom
- LightHunter, minimum 0.002 Lux illumination
- Smart IR, up to 300m (984ft) IR distance
- Gyroscope stabilization
- Intelligent wiper function
- 7/2 alarm in/out
- Optical defog
- Embedded gradienter for installation
- Smart function

#### Excellent Image Performance

Powered by LightHunter, the PTZ series camera can perform well in low illumination environment. Besides, built in car-grade LED, PTZ series cameras support up to 250m IR.

#### AlphaView

Built in powerful chipset, the AlphaView series PTZ cameras adopt deep learning algorithm to realize smart functions. These PTZ cameras support face capture (extract face attributes), perimeter protection (target classification, only human or vehicle trigger alarm, filter most of false alarm), auto-tracking (target classification, track human or vehicle), people counting, video metadata (vehicle, human, non-motor vehicle snapshot and attributes extraction).

# NVR

- Empowered by innovation to provide beneficial features
- Focusing on user experience to ease every operation process
- Born with high quality gene to ensure reliability on device and whole system

#### NVR308-64R-B

- Multiple innovative video output design: video ports can output pictures individually so live view and playback can be displayed simultaneously
- Support 4K video output, bring much more detail in image than ever
- Up to 12MP HD resolution video record, meet industry-leading requirement
- Professional RAID ensures complete video data storage

#### NVR301-04LX-P4

- Ultra 265, save up to 95% storage cost
- Zero configuration, support cloud upgrade
- Quiet & excellent temperature control
- Support Long Range PoE

### Updated U-code Technology

U-code is a deep video compression technology which can reduce up to 90% bitrate in order to save bandwidth and storage space. U-code technology separates moving target and static background with different codec and adjust GOP dynamically, meanwhile keeping good image quality. Recently, U-code supports all triple streams of IP camera, and change frame rate dynamically by video content to reduce more bitrate.

### Easy to Use/Maintain

All UNV NVRs support one-click firmware upgrade, upgrade via cloud, and plug & play for installers and end users to use easily. While troubleshooting, it's also easy to output diagnosis log by one-click. Also the NVR provide various methods for system maintain, for example network condition detection, POE port vitalization, USB recovery tools, to ease the process of system repair.

### Reliability at Design and Tests

From selective components to design product reliability during research and development, from process control during production to full-process traceability system, Uniview is dedicated to pursuit high quality. All sensor boards in UNV NVR are designed as 2mm thickness to avoid defocus by deformation while using in extremely harsh environment.

### Long Distance PoE

Even though the camera's location is hundred meters away from NVR, users can still easily connect camera directly to NVR for both power supply and video streaming. The NVRs in Easy Series support up to 250 meters long distance PoE.

### UBS Storage System

UBS is Uniview's patented technology for storage. Traditional NVR manufacturers use general file system which is not optimized for video storage application. By operating directly on HDD to improve I/O efficiency and using small block as minimum unit, UBS technology can reduce the risk of data loss in case of system malfunction. Besides, UBS storage system also support disk roaming and precise playback which make surveillance business much easier.

### Deep Learning Intelligence

The NVRs in Prime Series can provide accurate and real-time face comparison when used with Smart Bar which is powered by deep learning neural network algorithm. It is suitable for personnel identification application in different scenarios like buildings, communities, parks, chain stores, gas stations, supermarkets etc.

# VMS

UNV VMS products are powerful and highly reliable video surveillance management platforms which offer a comprehensive solution by connecting with other UNV products including IP camera, NVR, decoder, network keyboard, etc. They are compatible with ONVIF-compliant IP cameras and open to integrate with other systems. UNV VMS products have been widely used in various scenarios such as public security, finance, transportation, electric power, energy, education, and healthcare, and in diverse scenarios including large parks and buildings.

VMS		
Item	Unicorn	VMS-B800-A
<b>Appearance</b>		
<b>Video management</b>	<b>Number of connected cameras per server</b>	1,000 devices or 2,000 channels
	<b>Device management</b>	IPC, NVR, network keyboard, cloud devices, alarm control panels, access control, smart devices, decoder (built-in, expanded)
	<b>Numbers of online users</b>	300
	<b>Numbers of roles per user</b>	16
	<b>Number of mobile clients</b>	64
	<b>Bandwidth of video input per server</b>	512Mbps
<b>Decoding</b>	<b>Bandwidth of video output per server</b>	384Mbps
	<b>Video compression</b>	Ultra265, H.265, H.264
	<b>Decoding</b>	4×4K@30, 16×1080p@30, 36×720p@30, 64×D1
<b>Storage</b>	<b>Decoding card (optional)</b>	Max 2 cards supported; models: HDMI4-C and HDMI6-C
	<b>HDD installation</b>	Hot-swappable HDDs; Support 16 HDDs (3.5", up to 14TB for each )
	<b>Bandwidth of video storage per server</b>	512Mbps
<b>Play control</b>	<b>Disk enclosure (optional)</b>	Max 2 disk enclosures supported; models: DEU1008 and DEU1016
	1 / 3 / 4 / 5 / 6 / 7 / 8 / 9 / 10 / 13 / 16 / 17 / 25 / 32 / 36 / 64 window display	1 / 3 / 4 / 5 / 6 / 7 / 8 / 9 / 10 / 13 / 16 / 17 / 25 / 32 / 36 / 64 window display

	Up to 3 auxiliary monitors	Up to 3 auxiliary monitors
	Play NVR recordings	Play NVR recordings
	Synchronous playback up to 16 channels for single client; up to 24 channels for multiple clients	Synchronous playback up to 16 channels on single client
<b>Interface</b>	Speed: -256, -128, -64, -32, -16, -8, -4, -2, -1, 1/4, 1/2, 1, 2, 4, 8, 16, 32, 64, 128, 256	Speed: -256, -128, -64, -32, -16, -8, -4, -2, -1, 1/4, 1/2, 1, 2, 4, 8, 16, 32, 64, 128, 256
	<b>Network</b>	4×10M/100M/1000M Base-T adaptive Ethernet interfaces; 2×1000M SFP optical interfaces
	<b>USB</b>	4×USB3.0
	<b>HDMI</b>	2×HDMI
	<b>VGA</b>	1×VGA
	<b>Serial</b>	1×RS232 (RJ45), 1×RS485 (RJ45)
	<b>Alarm input/output</b>	24×alarm inputs, 8×alarm outputs
<b>Others</b>	<b>Power supply</b>	100-240V AC, with power switch
	<b>Expansion</b>	1×power module; 1×eSATA interface; 2×miniSAS interfaces; 2×decoding cards
	<b>Operation system</b>	Linux
	<b>Power consumption</b>	≤ 50W (not including HDD); ≤ 165W (including HDD)
	<b>Operating temperature</b>	-10°C to 55°C (14°F to 131°F)
<b>Others</b>	<b>Operating humidity</b>	10% to 90% (non-condensing)
	<b>Weight</b>	≤ 10.0 Kg (without HDD)
	<b>Dimensions(D×W×H)</b>	477.1mm×481.6mm×130.5mm (18.8"×19"×5.1")
		482mm×551mm×87mm (19"×21.7"×3.4")

## Professional Storage

Nebula, with high performance, high reliability, high availability, high density, high scalability and high usability, is a new-generation unified network storage developed especially for video surveillance. Integrating a wide range of features such as iSCSI storage, RAID processing, failover protection, permanent data protection and cutting-edge disk management technology, Nebula offers concurrent block access performance (iSCSI), and thus forms a comprehensive solution to storage in video surveillance.

# Face Recognition Terminal

UNV Face recognition terminal is an access control device with high recognition rate, large storage capacity and fast recognition speed. It supports face authentication to open the door. The UNV face recognition technology is perfectly integrated into the access control device, which relies on deep learning algorithm, to achieve precise control of human and effectively eliminate card fraud problem in traditional access control equipment. It can be widely applied in multiple scenarios, such as public security, transportation, parks, universities, justice, energy, medical and other industries.

Face Recognition Terminal

<b>Dimensions (H×W×D)</b>	134mm×78mm×457mm	171.1mm×32.8mm×324.1mm	126.4mm×20mm×204mm
<b>Working Environment</b>	-30°C to +70°C, Relative Humidity<95% (Non-condensing)	-20°C to +65°C, Relative Humidity<95% (Non-condensing)	-10°C to +55°C
<b>Application Situation</b>	Indoor, Outdoor	Indoor, Outdoor (waterproof cover required)	Indoor

## Overview

UNV Face recognition terminal is a kind of access control device with precise recognition rate, large storage capacity and fast recognition, which supports face authentication to open the door. The UNV face recognition technology is perfectly integrated into the access control device, which relies on deep learning algorithm, to achieve precise control of human and effectively eliminate card fraud problem in traditional access control equipment. It can be widely applied in multiple scenarios, such as public security, transportation, parks, universities, justice, energy, medical and other industries.

# Display & Control

- **Precision Manufacturing**

High quality manufacturing ensures stability and reliability

- **Perfect Display Effect**

Give you immersive visual experience

- **Excellent Structural Design**

Easy to install and maintain

- **Professional Video Wall Controller**

Powerful display control and management functions

LCD Video Wall

## LED Displays

Model	Sending Box UNV-S4
<b>Appearance</b>	 A black 1U rack-mountable LED display sending box. It has a digital display showing 'S4' and several control buttons on the front panel.
<b>Video Source Interface</b>	1xDVI, 1xHDMI, 1xHDMI_LOOP
<b>Input Resolution</b>	1920×1200 pixels maximum
<b>Video Source Frame Rate</b>	60Hz(support auto-adjustment)
<b>Control Area</b>	2.3million pixels maximum (W 4096 pixels, H 2560 pixels)
<b>Output Signal</b>	4xgigabit ethernet interface
<b>Transmission Distance</b>	CAT5≤140m, CAT6≤170m, optical fiber: no limitation
<b>Transmission Mode</b>	Frame mode (Gigabit Ethernet) with CRC
<b>Configuration Interface</b>	1xUSB 2.0
<b>Dimensions(W×H×D)</b>	440mm×44mm×240mm(17.3"×1.7"×9.4")
<b>Weight</b>	2.0kg(4.4lb)
<b>Power Supply</b>	AC 100~240V
<b>Power Consumption</b>	20W

## LED Displays

Model	LED Video Processor UNV-X16
<b>Appearance</b>	 A black 2U rack-mountable LED display video processor. It features a large blue LCD screen on the front panel, along with various control buttons and ports.
<b>Video Source Interface</b>	4xDVI, 1xHDMI, 2xSDI
<b>Input Resolution</b>	4096×2160@60Hz pixels maximum
<b>Control Area</b>	8.88million pixels maximum (W 8192 pixels, H 8192 pixels)
<b>Output Signal</b>	16xgigabit ethernet Interface
<b>Network control</b>	LAN(communication with PC, or access network)
<b>Configuration Interface</b>	1xUSB in(connects with PC to configure parameters) 1xUSB out(cascading with the next controller)
<b>Genlock</b>	Genlock signal input ensures synchronism of display image
<b>Genlock Loop</b>	Genlock synchronous signal loop output
<b>Size</b>	2U standard box
<b>Dimensions(W×H×D)</b>	483mm×88mm×380mm(19.0"×3.5"×15.0")
<b>Weight</b>	6.8kg(15.0lb)
<b>Power Supply</b>	AC 100~240V
<b>Power Consumption</b>	80W

<b>DVI Output Format</b>	XGA:1024×768@60Hz, 720P:1280×720@60Hz, SXGA:1280×1024@60Hz, UXGA:1600×1200@60Hz, WXGA+:1440×900@60Hz, 1080P:1920×1080@60Hz, WUXGA:1920×1200@60Hz	
<b>Main Control Panel</b>	SC80-MPUS (Main control panel)	
<b>Optional Cards</b>	SC80-H08E (HDMI input card with 8 ports)	
	SC80-D08E (DVI input card with 8 ports)	
	SC80-V08E (VGA input card with 8 ports)	
	SC80-D08D (DVI output card with 8 ports)	

## Decoder ADU8612-E

Model	ADU8612-E
<b>Appearance</b>	
<b>Product</b>	12-Channel High Definition Video Decoder
<b>Output Channel</b>	12×DVI
<b>DVI Output Format</b>	XGA:1024×768@60Hz, 720P:1280×720@60Hz, SXGA:1280×1024@60Hz, WXGA+:1440×900@60Hz, UXGA:1600×1200@60Hz, 1080P:1920×1080@60Hz, WUXGA:1920×1200@60Hz
<b>Input Channel</b>	2×DVI, 2×VGA
<b>DVI Input Format</b>	1024×768@60Hz, 1280×720@60Hz, 1280×720@50Hz, 1280×1024@60Hz, 1440×900@60Hz, 1600×1200@60Hz, 1920×1080@60Hz, 1920×1080@50Hz
<b>VGA Input Format</b>	1024×768@60Hz, 1280×720@60Hz, 1280×720@50Hz, 1280×1024@60Hz, 1440×900@60Hz, 1600×1200@60Hz, 1920×1080@60Hz, 1920×1080@50Hz
<b>Video Stream Format</b>	H.265, H.264
<b>Decoding Capability</b>	16×1200W@20, 16×4K@30, 64×1080P@30, 144×720P@30
<b>Display Split</b>	1/2/3/4/5/6/7/8/9/10/13/16
<b>Serial Interface</b>	1×RS-232, 1×RS485
<b>Network Interface</b>	2×RJ-45, 10M/100M/1000M adaptive Ethernet Interfaces
<b>Power Supply</b>	100V~240V AC, 50Hz/60Hz
<b>Consumption</b>	80W
<b>Work Condition</b>	-10~+55°C(14°F~131°F)/10%~90%RH
<b>Weight</b>	5kg(11.0lb)
<b>Dimensions (W×H×D)</b>	442mm×89mm×420mm(17.4"×3.5"×16.5")

**Decoder DC5301**

Model	DC5301-IN
<b>Appearance</b>	
<b>Product</b>	Single Channel High Definition Video Decoder
<b>HDMI Output</b>	1 ch 3840×2160@60, 3840×2160@30, 1920×1080@60, 1920×1080@50, 1600×1200@60, 1440×900@60, 1366×768@60, 1280×1024@60, 1280×720@60, 1024×720@50, 1024×768@60
<b>VGA Output</b>	1 ch 1920×1080@60, 1920×1080@50, 1600×1200@60, 1440×900@60, 1366×768@60, 1280×1024@60, 1280×720@60, 1024×720@50, 1024×768@60
<b>CVBS Output</b>	PAL
<b>Video Decoding Resolution</b>	12MP, 8MP, 6MP, 5MP, 4MP, 3MP, 1080P, 1080l, 960P, 720P, D1, CIF
<b>Decoding Capability</b>	2×1200W@30, 4×8MP@30, 8×1080P@60, 16×1080P@30
<b>Display Split</b>	1/2/3/4/7/9/16/25/36
<b>Audio I/O</b>	1/1
<b>Audio Compression</b>	G.711 μ, G.711A
<b>Network Interface</b>	2×RJ-45 10M/100M/1000M adaptive ethernet
<b>USB Interface</b>	1×USB2.0
<b>Serial Interface</b>	1×RS-232, 1×RS-485/422
<b>Alarm I/O</b>	4/2
<b>Power Supply</b>	12V DC
<b>Consumption</b>	15 W
<b>Work Condition</b>	-10~+60°C(-14°F~140°F)/10% ~ 90%RH
<b>Weight</b>	2.0kg(4.4lb)
<b>Dimensions(W×H×D)</b>	189mm×40mm×250mm(7.4"×1.6"×9.8")
